

Hawai'i Pacific Health Medical Group At-A-Glance Fact Sheet

About Hawai'i Pacific Health Medical Group

The Hawai'i Pacific Health Medical Group (HPHMG) was formed in December 2019 to unify our employed physicians and advanced practice providers at Hawai'i Pacific Health's medical centers and clinics into one medical group. The consolidation brings the talent and expertise of our providers together to ensure consistency and excellence in patient outcomes and patient experiences throughout Hawai'i Pacific Health. Members of HPHMG function as one team and share a collective commitment to provide consistent, high-quality care and service to our patients, their families and our community as they work together toward our mission to create a healthier Hawai'i.

This optimal organizational structure also supports Hawai'i Pacific Health's efforts to make our organization a great place for our providers to practice medicine by promoting collegiality, teamwork, collaboration and well-being.

Mission

The mission of HPHMG is to create a healthier Hawai'i.

Providers

HPHMG employs nearly 900 physicians and advanced practice providers who serve patients in both primary and specialty care on the islands of Hawai'i, Kaua'i, Lana'i and O'ahu.
